Cambridge

LIMITED LIFETIME ARCHITECTURAL SHINGLES

The Cambridge shingle is the shingle of choice for homeowners who demand the best in terms of quality, durability and value. Combining an extraordinary shake-like design with superior protection makes it a time-tested favorite.

Cambridge shingles are engineered to offer customers more protection and peace of mind with a larger, heavier and more durable shingle. Constructed with two layers of heavyweight fiberglass mat, more asphalt and less fillers, these shingles set the standard by offering a Limited Lifetime Warranty, superior tear strength and resistance to high winds.

- Cambridge AR shingles feature an algae resistant granule.
- 15-Year IKO Iron Clad Protection¹
- Covered by a Limited Lifetime Warranty¹
- Provides up to 110 mph (177 km/h) Limited Wind Warranty¹
- Limited High Wind Warranty Upgrade of 130 mph (210 km/h)^{1,2}

¹ See Limited Warranty for complete terms, conditions, restrictions and application requirements.

² High Wind Application is required.

**A Time-Tested
Favorite**

**The Cambridge
shingle is selected
by consumers who
demand the best in
terms of quality,
durability and value.**

Architectural Charm

Cambridge shingles are layered to create shadows and depth. Eye-catching as a shake roof, they elevate your home's curb appeal.

Color Featured: Harvard Slate

Shingles alone are sometimes not enough to protect your home. IKO has developed a superior multi-layered roofing system incorporating our industry-leading products.

IKO's Pro 4 Roofing System is setting the standard in protecting your home.

IKO's Shingles Crowne Slate, Armourshake, Royal Estate, Grandeur*, Cambridge and Marathon shingles are created using the industry's most advanced technology and selected by consumers who demand the best in terms of quality, durability and value. Along with one of IKO's quality shingles, your Pro 4 System includes these accessory products;

1. Eave Protection

GoldShield, ArmourGard, or StormShield Ice & Water Protectors
IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

2. Underlayment

Asphalt Saturated Felt*, RoofGard-SB or RoofGard-Cool Grey Underlayments

Use an asphalt saturated felt underlayment, or our innovative RoofGard-SB or RoofGard-Cool Grey synthetic underlayments for total deck protection.

3. Roof Starters

Leading Edge Plus Starter Strips
Fast, easy and convenient. IKO's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with all existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

4. Ridge Cap Shingles

Hip and Ridge, Hip & Ridge 12 Cap Shingles or Ultra HP™ High Profile Ridge Cap Shingles

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.

Shingle Swatches shown are as accurate as modern printing processes allow. Shingle chips shown do not fully represent the entire color blend range of the shingles. To ensure complete satisfaction please make your final color selection from several full size shingles and view a sample of the product installed on a home.
